Ruiz 4 Kids is made up of Ruiz Foods team members (employees) who have joined together to make a meaningful difference in the lives of children. Team members from almost every department at Ruiz Foods—from plant operations to technology, from finance to marketing, volunteer their time to serve as a board member, advisors or an associate.

These team members not only give of their time and abilities, but gain valuable information regarding the responsibilities of conducting a public charity organization and develop vital leadership skills.

Ruiz Foods applauds and encourages their efforts, while supporting team member-driven philanthropic strategies and efforts. It is this energy—the force generated by a group working together to achieve a common goal of helping children—that has both formed and continues to fuel Ruiz 4 Kids.
